MINING AFFAIRS.

The Commissioner of the General Land Office has just finished, and ready for transmission to the applicants, the first patent issued under the Mining pet of July 26, 1866, covering a very valuable quick silver claim in the Monterey quicksilver mining district, Monterey county, California, in township No. 18 south, range No. 11 east, Mount Diablo meridian. Owing to the novelty of the proceedings at these cases, and the want of experience in dealing with the chem, applications under this law have not reached the Department as speedily as otherwise might have been the case. The Clear Creek claim was returned to California for correction. On the 11th of June last the papers complete were again forwarded, and have reached the General L nd Office, meeting all the requirements of the law. The patent just prepared grants 6,000 feet of the Clear Creek lode, with sufficient surface ground for the convenient working of the same; and in palt of mechanical execution it is one of the most beautifully finished documents ever issued from the Depa timent. All other cloins under the act will be patent at the requirements of the statute, a matter that will be attended with less perplexity in the future than hear choice, on a count of the experience that has been acquired by the various offers whose action is needed in the prehimbary stages of the proceedings. This branch of the Land service is one of the greatest importance, extending its operations over the surface of more than one thousand mineral localities. MINING AFFAIRS.

ARMY MATTERS. By direction of the Secretary of War, enlisted men who may dispose of or lose, through their own carelessness, the Springfield breech-loading musket, will hereafter have charged against them, upon the muster rolls fifty dollars for each and every musket so lost or disposed of.

MR. EVARTS CONFIRMED.

Senator Trumbull succeeded in getting the Senate last evening:

Be it entired the last of suns of the United States after twenty, thirty, and torrest of the United States after twenty, thirty, and torrest of 20 to 5. When many of those opposed to him, found that his friends were determined to sit it out and confirm him, they abandoned the case and left the hall. Gen. Thayer, Mr. Sunner, Mr. Chandler, and Mr. Stewart made strong arguments against it out and confirm, assailed Mr. B., calling him "scounderl," and special got the Senate to take consizence of the expressions put upon him by the Managers. He defended Mr. Craig, who, he said, was a better man than Mr. Butter. Mr. Craig, who, he said, was a better man than Mr. Butter. Mr. Craig, who, he said, was a better man than Mr. Butter. Mr. Craig, is the collector who assured Mr. Cooper that "Henderson is safe," Mr. Evarts was defended by Messrs. Conkling, Trumbull, and others would have secured the confirmation of Mr. Stanbery, for there was no argument made against one not equally good against the other.

THE ARMY. Mr. Wilson introduced a bill to reduce the mili-tary peace establishment of the United States, which was referred to the Committee on Military Affairs. was referred to the Committee on Military Affairs.

The bill provides for a reduction of the number of onlisted men to 25,500, to be contained in thirty regiments of infantry, eight of cavary, and four of artiliery, and contemplates the appointment by the Secretary of war of a board of competent officers whose daty it shall be to prepare and submit to him a plan for carrying into effect its provisions, specifying in detailed manner, consolidating existing recinents, and designating what officers are to be retained on duty or otherwise. This plan is to be submitted by the Secretary of war at the next session, and no action shall be taken upon it until Congress shall have given its approval.

OCEAN STEAM LINES. OCEAN STEAM LINES.

Mr. POMERION called up the bill for the establishment of a line of steamships from New York to verious ports in Europe, under a company to be styled the Commercial Steam Navigation Company. Mr. Pomeroy urged, as on a former occasion, the advisability of having the mails carried on American vessels as proposed by the bill. He said that the bill, as passed by the liouse, rives the Company no subsidy, simply allowing them postage on the letters they shall carry, to the amount of four hundred flousend a year, for twenty years, and that beyond that there is no liability upon the Government.

Mr. Conness, while in aiver of having successful competition on the occan by American lines, was opposed to its principle, which would prevent any future reduction in the rates of postage; at all events, without compensation to the company.

Mr. Firelinghuysen advocated and explained the bill.

Several Senators pronounced themselves in favor f the scheme.

Mr. Morrill was in favor of establishing a line of

Mr. Moirith was in favor of establishing a line of American steamships; but he desired that amendments should be made to the bill. He moved to make the period during which the arrangements shall cales ten years instead of twenty, which he thought too long a period for a monopoly in these days of commercial enterprise.

The amendment to reduce the period to ten years was agreed to by a vote of \$20 to 17.

The bill was then bild aside.

THE BILL REGULATING APPOINTMENTS. THE POURTEENTH AMENDMENT.

The FOURTENTH AMENDMENT.

The Chair laid before the Senate a communication from the President, in story a report from the Secretary of State, with a story of the States of the Union that have ratified to the Constitution of the United States, together alth copies of the resolution of ratification, also copies of the resolution the Ohio and New Jersey Legislatures, purport of the resolution the Auditory Committed Committee of the States of the States of the Publication of the Said amendment, which was referred to the Judiciary Committee.

OUR NEW TERRITORY. Mr. Changler introduced a bill to extend the aws of the United States, relating to customs, avigation, and commerce, over Alaska, and to establish a collection district therein, which was referred to the Committee on Commerce.

INDIAN AFFAIRS.

The Indian Appropriation bill was then taken up, and the amendments reported by the Committee on appropriations were of triling importance, and were concurred in. A large number of amendments of detail were reported from the Committee on Indian Affairs. One of them, providing for the appropriation of \$5,000 for presents to Indian, elicited some discussion, in Manage basing agreed to.

The amendment was agreed to.

The consideration of the Indian Appropriation bill was continued through the afternoon. INDIAN AFFAIRS.

TAX ON SPIRITS. Mr. SHERMAN, shortly before four o'clock, made a lengthy report from the Committee of Conference appointed on the disagreements between the House and the Senate, on the bill to change and more effectually scene the collection of the tax on distilled spirits, tobacco, etc., which was agreed to.

At 4:10, P. M., the Senate went into executive session, and, after some time, adjourned.

House of Representatives. THE CONTINGENT FUND.

Mr. Washburn, of Indiana, offered a resolution for the appointment of a committee of five to investigate the disbursement of the conting at fund of the itouse for 1967 and 1968, with the pover to send fopersons and papers, where the same can be done without expense, which was adopted.

NAVAL OFFICERS RESTORED. Mr. Pike, from the Committe on Naval Affairs, re-norted a bill for the restoration of Commanders freenlest, Cilley, and Aaron K. Hughes of the United states navy, to the active list from the retired list.

AID FOR DEAF AND DUMB. The till to aid the deaf and dumb of the District of Columbia was passed. It appropriates for the support of the Institution in addition to an existing appropriation of \$3,000, and for building expenses, \$45,000.

Mr. Dawes, from the Committee on Elections, reported that the credentials of David Heaton, member elect from the Second District of North Carolina, had been examined and found to be in June form, Mr. Heaton thereupon advanced to the Speaker's clair, had the test oath administered to him, and took his seat as Representative from North Carolina.

BOUNTY CLAIMS. Mr. Bayen reported back the bill introduced by Mr. Koontz, repealing so much of the second section of the act of the 28th of February, 1887, as provides that that section shall apply only to claims of drafted men for bounty received at the War Office prior to its passage; it extends the time for presenting such claims two years. After an explanation by Mr. Koontz, the bill was passed.

THE GREAT WEST.

Mr. DONNELLY addressed the House upon the necessary measures for the development of the great interior plains of the continent. Several bills, he said, were pending for grants of land to California, Nevada, and other States, for the construction of works to irrigate the large regions of the new uninhabited country. He showed the great extent of irrigation in Europe, stating that in three States 3,000 square miles were cultivated by irrigation; that an extent of land around the Mediterrancas sea was cultivated by irrigation equal to the whole area of that sea. He showed the results in the United States, especially in Utah, and claimed that nearly all the great plains would be cultivated if the water of the lakes and rivers was turned to proper account. He also argued the necessity for the encouragement of the growth of woods and forests in all the prairie and plain country, and that irrigation would lead to this as had been proved in the case of Utah. The innerior plains were not habitable without irrigation and forests, and if these could be created by wise legislation, such as these land grants proposed, a vast area would be urnished for the use of settlers and great benefits conferred on mankind.

The House then, at 3 o'clock, proceeded to the consideration of the Missouri contested election case of Mr. Switzler against Mr. Anderson, the Committee on Elections reporting that the sitting member, theo. W. Anderson, was not entitled to the seat, and that the contestant, Wm. F. Switzler, was.

Mr. Polasto addressed the House in advocacy of the report of the Committee.

Mr. Scoffeld—There is no tax pergalien on petroleum?

Mr. Schenck—No tax except on sales. The removal of spirits in bend is required to take place in the months—a compromise between the six months of the House and the twelve months of the Senatz The loss of revenue on petroleum ac estimated at shout two millions of dollars. The special tax of distillers remains as before; the tax on sales of wholesale liquor desfers is to, be one per cent.—a compromise between the three per cent. of the House and the one-fifth of one per cent. of the Senate. By the provisions relating to inspectors some 1,600 or 1,700 officers touid be got rid of, only some 100 inspectors being left to inspect tobacco, snuff, and signar.

Mr. Eldridge—What reduction will it make in revenue officers?

Mr. Schenck—Certainly more than balf.

BUSINESS IN THE WAYS AND MEANS COMMITTER.

Mr. WASHBURNE, of Hilinois, inquired as to the business before the Committee on Ways and Means in reference to adjournment.

Mr. Schenen replied that the principal business before the Committee was the Funding bill referred to it to-day, and which the Committee would report back within forty-eight hours.

Mr. Been suggested the printing of extra copies of the Tax bill, for the information of the people.

Mr. Schenen thought that a good suggestion, and proposed twenty thousand extra copies of the bill, to be indexed by the Clerk of the Committee of Ways and Means, which was referred to the Committee on Printing.
